

**PROJECT WORK- 10**  
**STARS AND SOLAR SYSTEM**

**Some items to be given as project work for class-08 students.**

**They can do any one of the following. The report should be in at least two A4 pages.**

1. What is the duration of day and night today. Collect the information about duration of day and night for the past 7 days from the news papers. Analyze the data and say whether summer or winter is going to come. How can you guess ? Support your answer.

2. Identify the other places which located on the same latitude as your district. Draw a diagram or map needed.

3. Collect information about cosmic dust (wastage) from news papers and make a poster in your school panel board about the consequences of cosmic dust .

4. Collect the information about solar system. Collect some photographs or paper clippings. Make an album.

5. Collect the information about constellations. Try to prepare a map to identify the constellations.
