నమూనా ప్రాజెక్ట్ పని

విద్యార్థి ప్రాజెక్ట్ పనిని స్వేచ్ఛగా చేయగలగాలి.

తనదైన రీతిలో సమాచారాన్ని సేకరించుకోవాలి.

సమాచార సేకరణ అంటే ఇతరుల దగ్గర లేదా పత్రికలు, పుస్తకాల నుండి సేకరించినది అని అర్థం.

ఈ పనులకు కనీసం రెండు పేజీల నివేదిక ఉంటే సరిపోతుంది.

అవసరాన్ని బట్టి ఎక్కువ లేదా తక్కువ సేకరించడం అనేది పూర్తిగా విద్యార్థికి స్వేచ్ఛ ఉండాలి.

ఒకరి ప్రాజెక్ట్ పనిని మరొకరి ప్రాజెక్ట్ పనితో పోల్చరాదు.

విద్యార్థి చేసిన ప్రయత్నానికి ప్రాధాన్యతను ఇవ్వాలి.

సమాచారానికి రెండవ ప్రాధాన్యతను ఇవ్వాలి.

చేతి వ్రాతకు అంతగా ప్రాధాన్యతను కల్పించకూడదు. కానీ స్పష్టత మరియు నివేదనకు కొంత ప్రాధాన్యం ఉండాలి.

MODEL PROJECT WORK

Student can do the project freely.

He can collect the information as per his own ideas.

Collecting information means – not only from magazines but also from others.

Project work report should be in at least two pages.

Size of matter is not important whether it is short or long.

Don't compare one's project with others'.

Give primary preference to the trail of the student.

Preference to the content is secondary.

Less preference should be given to hand writing. But Neatness can be maintained.

INTRODUCTION

Children should be hale and healthy. Country means people but not soil says "Gurajada". The development of any nation depends on its healthy youth. The growing children become the future citizens only when they have nutritious food. The age between 11 and 15 is the growing stage. This is an adolescent period. Children should need a balanced diet.

The stage of growth needs proteins and vitamins. In our country the nutritious food is not being reached to many children because of poverty. The number of B.P.L. families is also on top. It is time the Govt. took necessary steps in this respect.

NEED STATEMENT

As you all know that what is wealth? "Health is wealth", The less you eat - The better health you have. Eat to live but not live to eat. We take care not only in taking food but also in maintaining our health. Otherwise we become fat. This obesity some times leads to some problems.

The nutrition food helps for all around development of personality. [bone development, organ development, growth of body, and proper digestion]. In our village P. Dornala the children studying from VI to X are not having the nutritious food. The reason for this is mainly poverty most of the children belong to backward communities. The parents also should take care of their children.

METHODOLOGY

We collected the height and weight of 541 students studying from VI to X in our, Govt. High School, Dornala. Set the list in BMI Maps. We compare the average weight and height of the boys with those of girls. Later we noticed that the most of the boys do not have the enough weight. We also came to know about the reasons for their weightless ness. Then we advised them in this regard through our Mandal Medical Officer Sri B. Lakshma Naik. We collected the information in the form of graphs. Later we explained the same to the children and asked them to reveal it to their parents about nutrition food.

OBSERVATION

- * Boys between 10 to 13 age group do not have enough weight.
- * From 10-13 age 55% of Boys and 42% of Girls do not have Sufficient weight.
- * Similarly 6% of Boys and 4% of girls are suffering from obesity.
- * Totally between 10-13 age group 48% of Boys ^{are} weak and 5% of children suffered from obesity.
- * Boys between 13 to 16 age group also have insufficient weight.
- * From 13-16 age 43% of Boys and 27% of Girls do not have Sufficient weight.
- * Similarly 11% of Boys, and 17% of Girls are suffering from obesity.
- * Totally between 13-16 age group 34% children are weak and 14% children are Fat.
- * **Data Analysis of 10-16 age group children [Height & weight]**

	TOTAL NO.	No. of Students Having less weight	%	No. of Students Having over weight	%	REMARKS
BOYS	250	123	49%	20	8%	బాగా తక్కువ
GIRLS	291	101	35%	31	11%	బాగా బరువు
TOTAL	541	224	42%	51	9.5%	పరిష్కారం చేయాలి.

- * Girls are stronger than boys.
- * Girls are more active than boys.
- * The reason for this deficiency is most of the children belong to the B.P.L. families.
- * We created awareness about the value of the Vitamins, minerals, Fats, Carbohydrates and calories in food, among the students, through our Mandal Medical officer Sri B. Lakshma Naik.
- * In our Science club we preferred vitamin capsules through a medical camp.

SOLUTIONS

- * Our body needs Carbohydrates, vitamins and proteins also Fats proportionately.
- * We do not get nutritious values only by taking rice or meat.
- * The students suffer in taking the lack of nutritious food.
- * Ice creams and cakes give us instant energy.
- * Take a glass of milk every day because milk is the complete food.
- * More or less meals is also cause to ill health. So we have to take sufficient food.

CONCLUSION

- * Nutritious values depends on the age of the persons.
- * Take selected nutritious food for good health.
- * Get monthly health checkup.
- * The poor children suffer ~~with~~ from leucemia. So they should take more vegetables.
- * Take the food which has more nutritious value.
- * I wish all the children enjoy sound health.
- * "A SOUND MIND IN A SOUND BODY"
